TVS Group, established over 100 years ago, is India's leading supplier of automotive components and one of the country's most respected business groups - a name to reckon with when it comes to value based business. Today the group has over 50 companies with a combined Turnover of US\$7 billion.

TVS TREAD is the retreading arm of Sundaram Industries Ltd., a group company of TVS and a pioneer for retreading in India. With its established leadership in the field of retreading for over 70 years, TVS TREAD offers a variety of precure treads as well as conventional tread rubber for a wide range of tyres - both for Radial and Bias.

QUALITY STANDARDS

TVS TREAD uses its own special and unique formulations for tread rubber, manufactured in-house, under stringent quality standards resulting in high quality of retread performance. TVS TREAD offers a complete range of retread materials and tread designs to suit various applications.

The products offered by TVS TREAD conform to ISO 9001:2008 and other equivalent quality standards. The raw materials and the finished products are tested in a state-of-the-art laboratory established in-house.

Innovation and continuous improvement is a way of life at TVS TREAD, as we strive to ensure Trust, Value and Service to every customer we do business with.

OTHER SERVICES

TVS TREAD can offer various Add-on services:

- * Development of a specific design of tread rubber for a specific application based on customer requirements.
- * Consultancy services and technical support for retread solutions and to establish retread plants, along with the supply of tread rubber, consumables and repair kits.
- * Comprehensive training programme on repairs for Radial / Bias commercial tyres.
- * Conduct technical seminars on total tyre care and tyre maintenance - for both, Commercial and the OTR segments.
